

# ACE23

REIMAGINE YOUR POSSIBILITIES

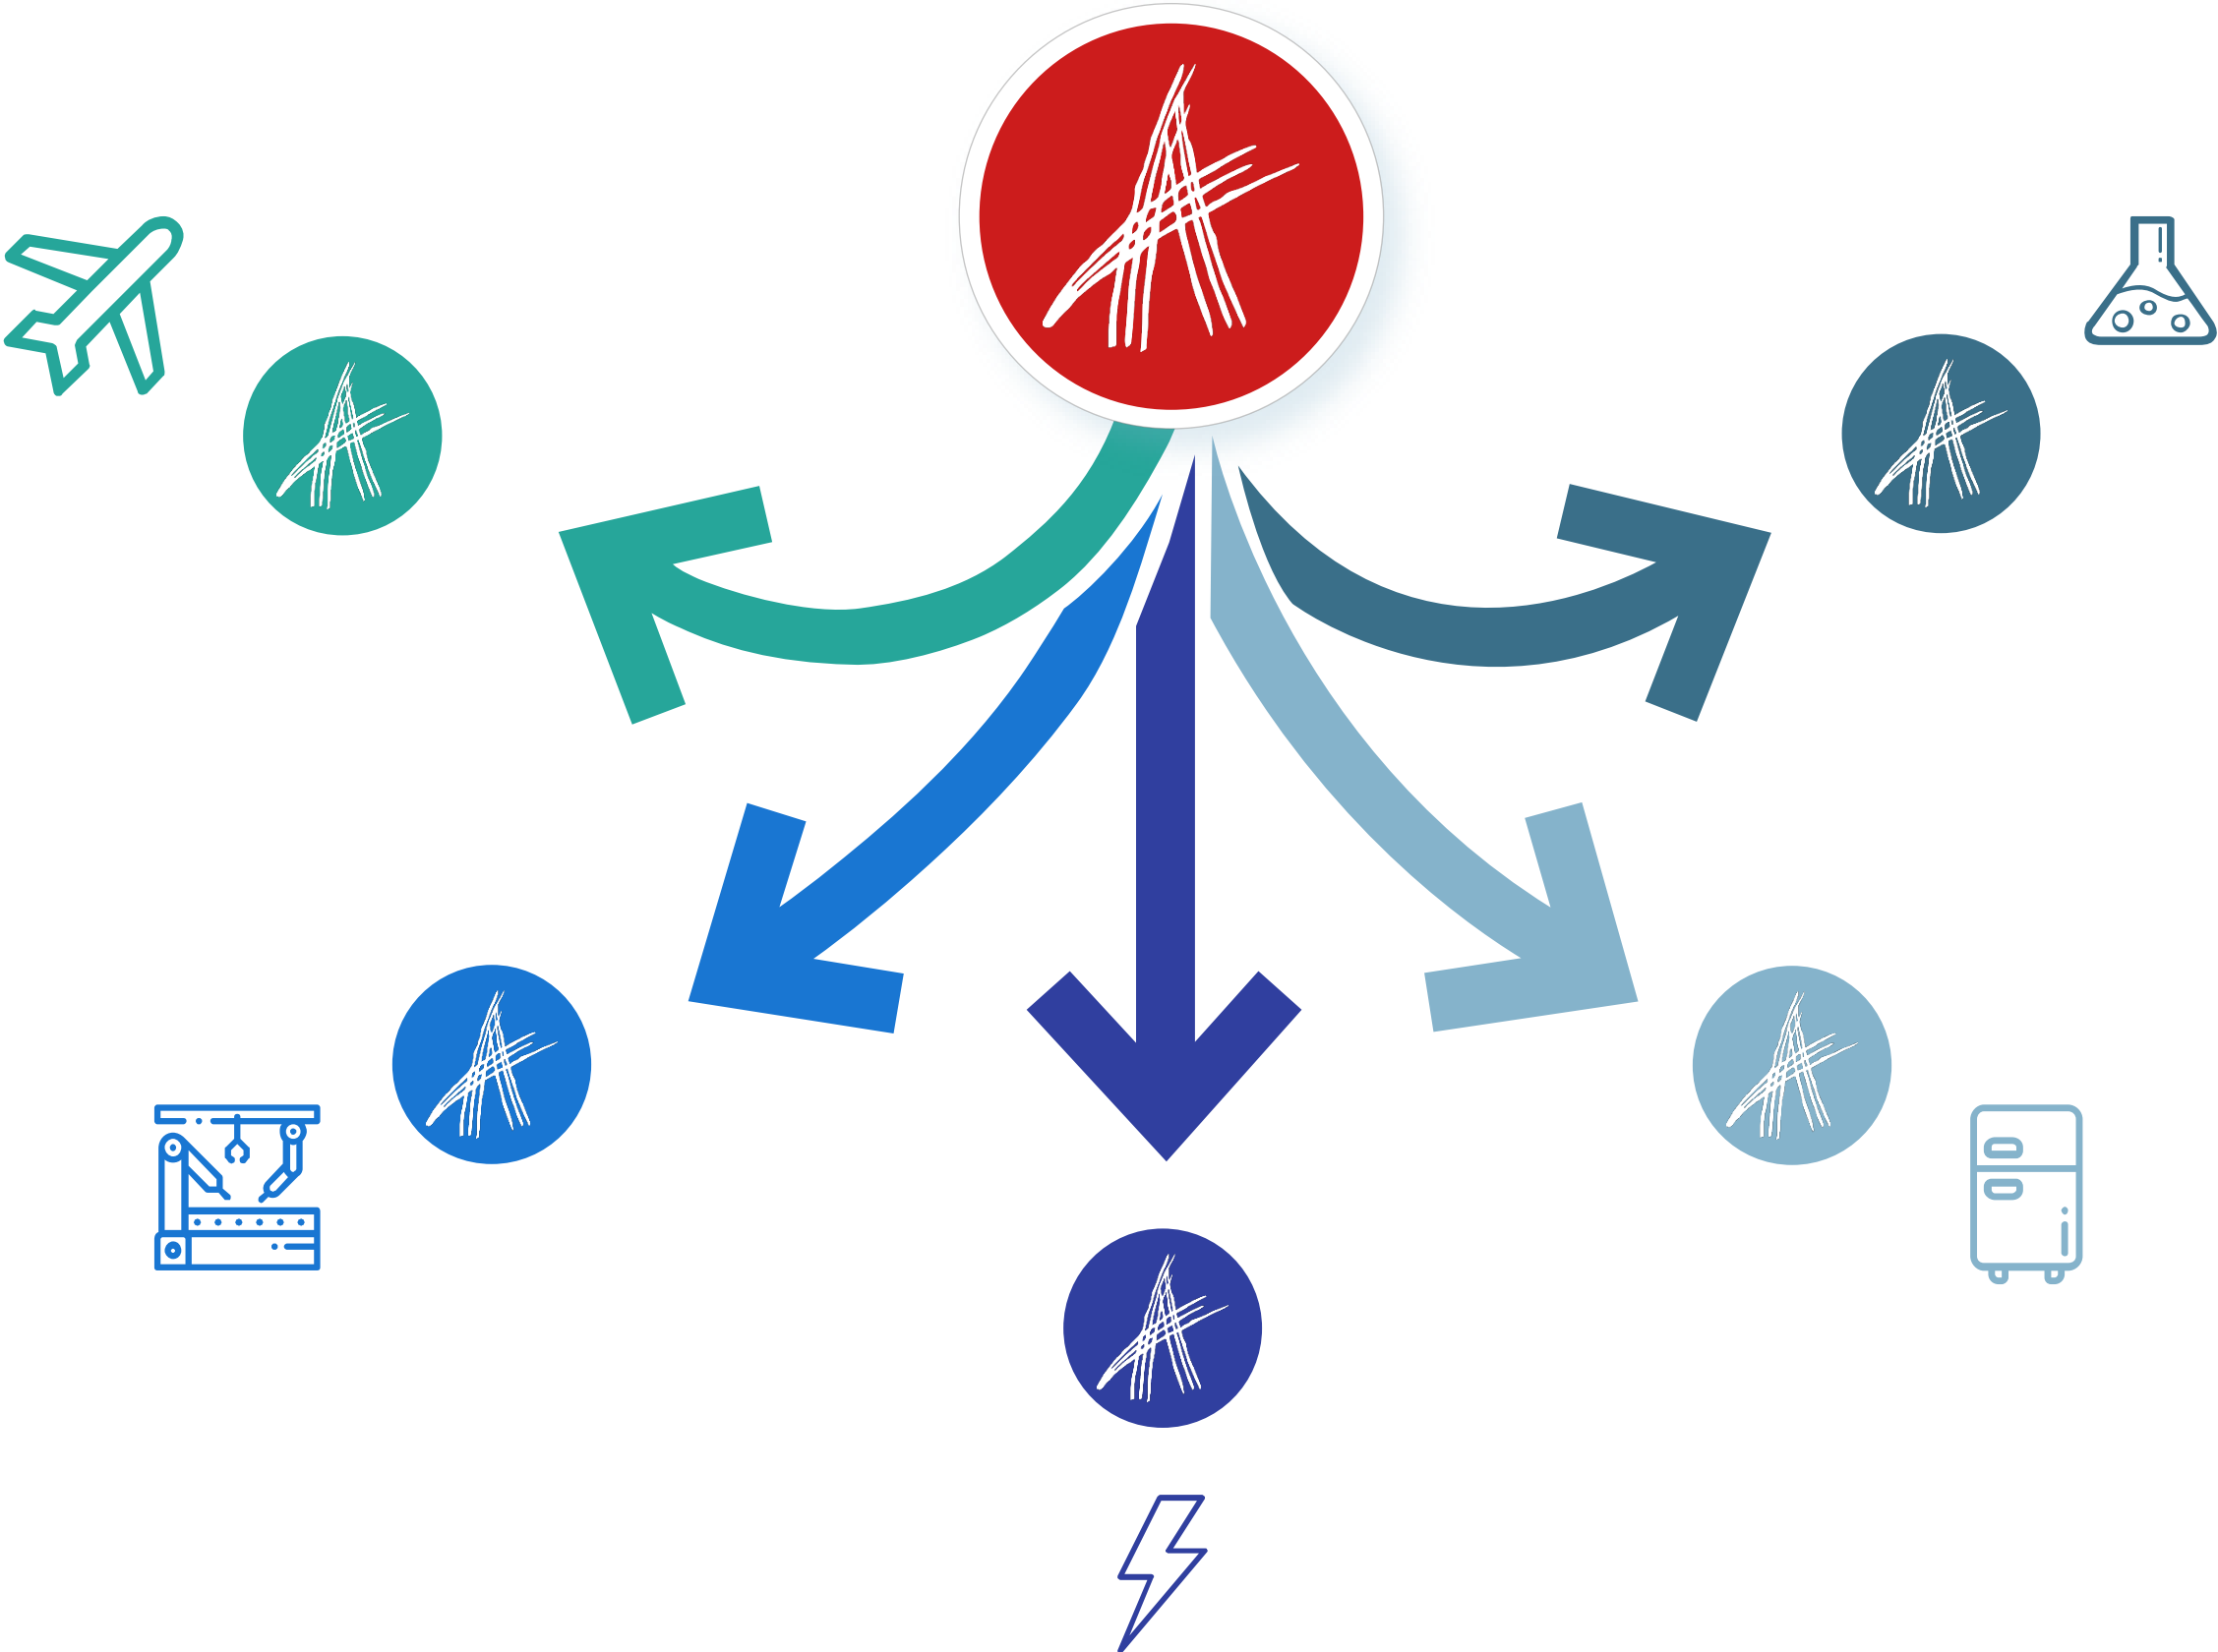

## The First Truth is that at Least Half of Ideas are Just not Going to Work

Matteo Nicolich

Director of Product Management – **Aras** Product Exploration

# One Platform - many specific needs - many implementations

# How Does Aras Product Go To Market?

- 1 Understand Your Needs
- 2 PoC – Solution Customization
- 3 Implementation Workshop
- 4 Solution Implementation
- 5 Solution Deployment
- 6 Support & Upgrades

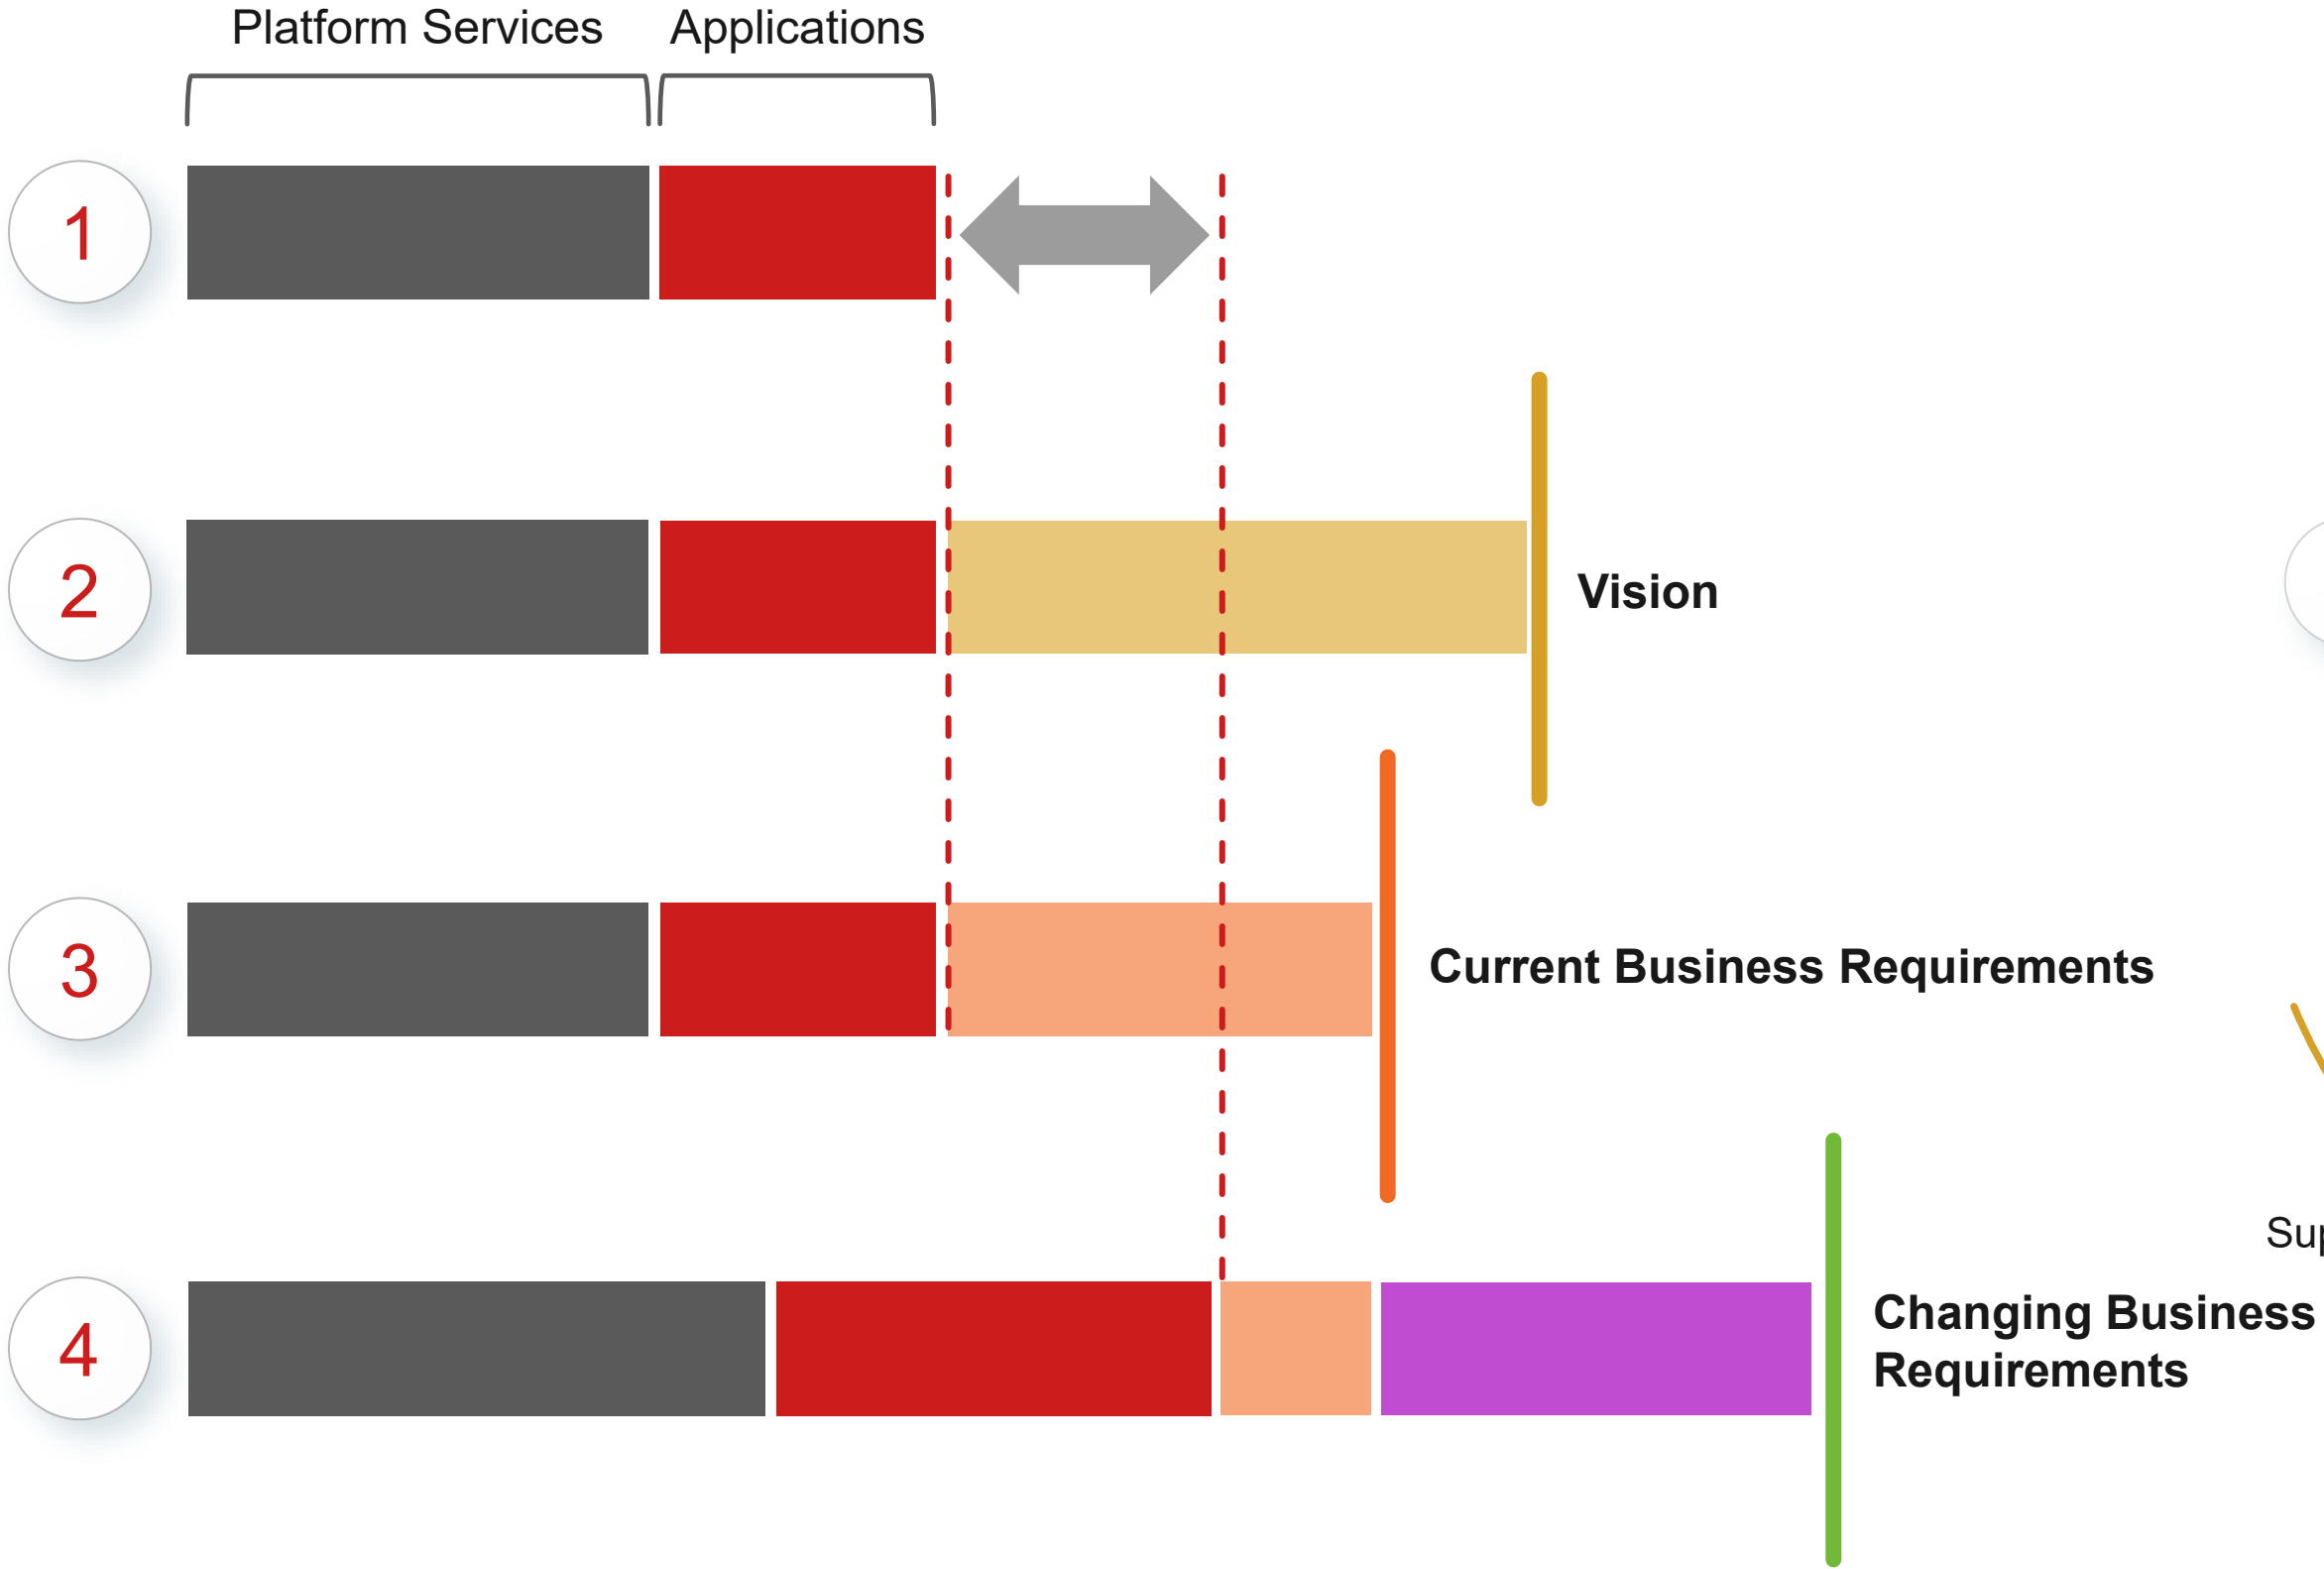

# Adapting to the Business Needs

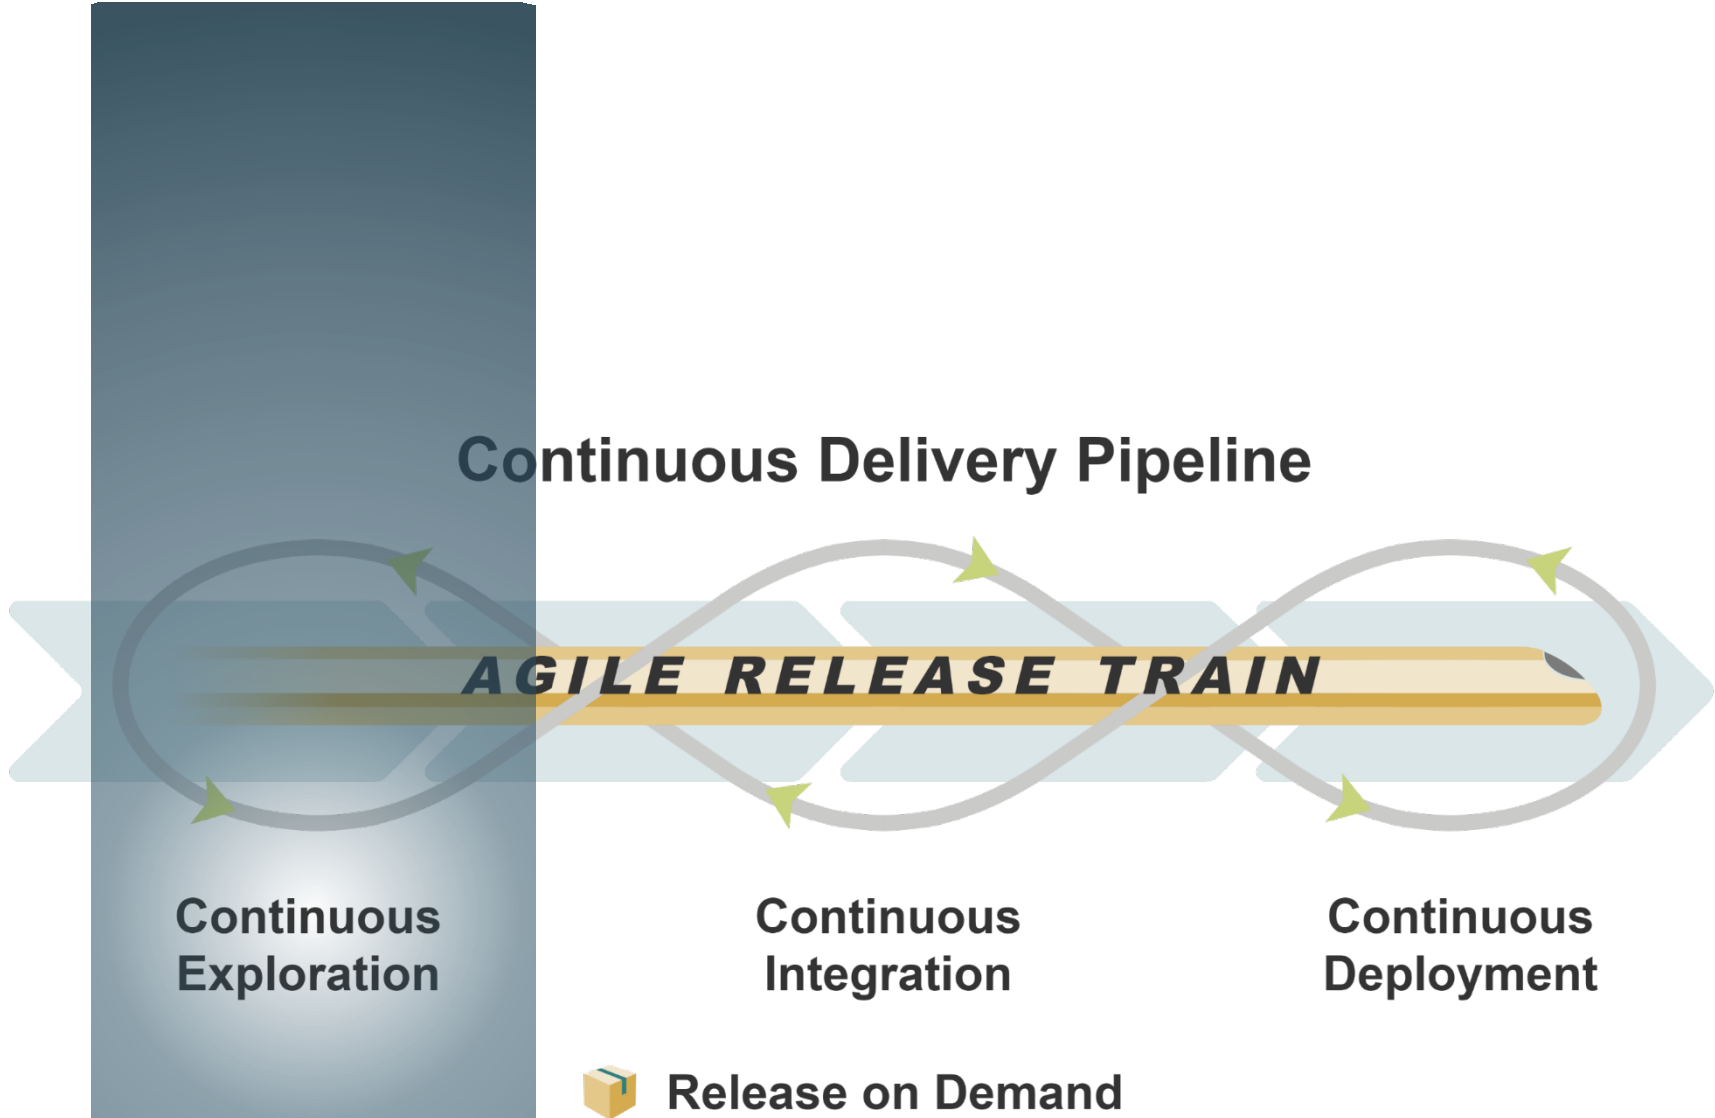

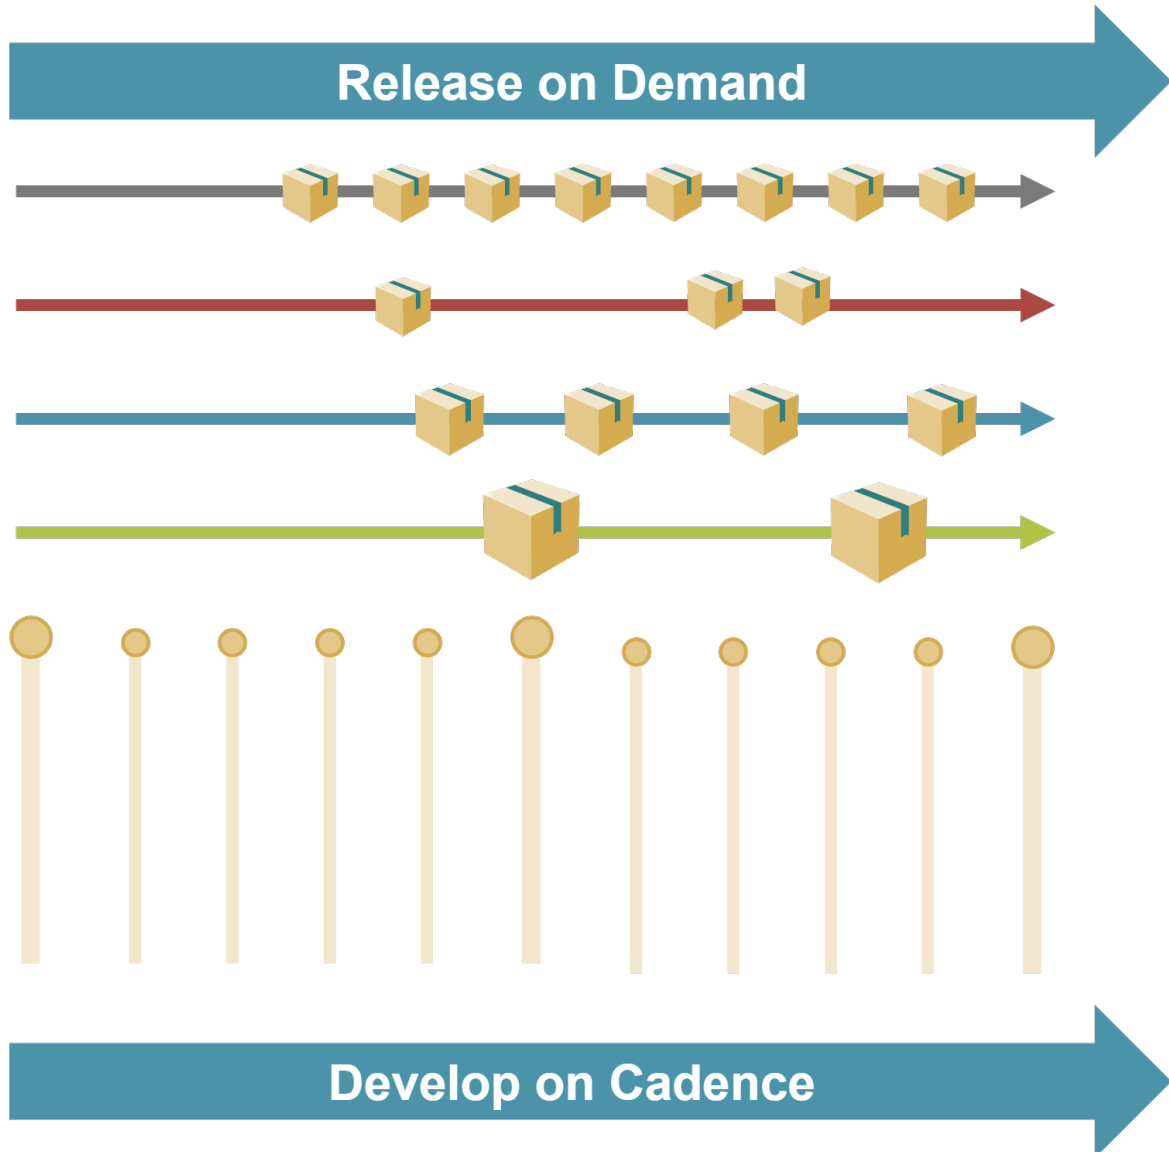

# Closing the Gap

# SAFe – The Continuous Delivery Pipeline

© Scaled Agile, Inc.

After 4 years of SAFe, we are very good at CI/CD

“

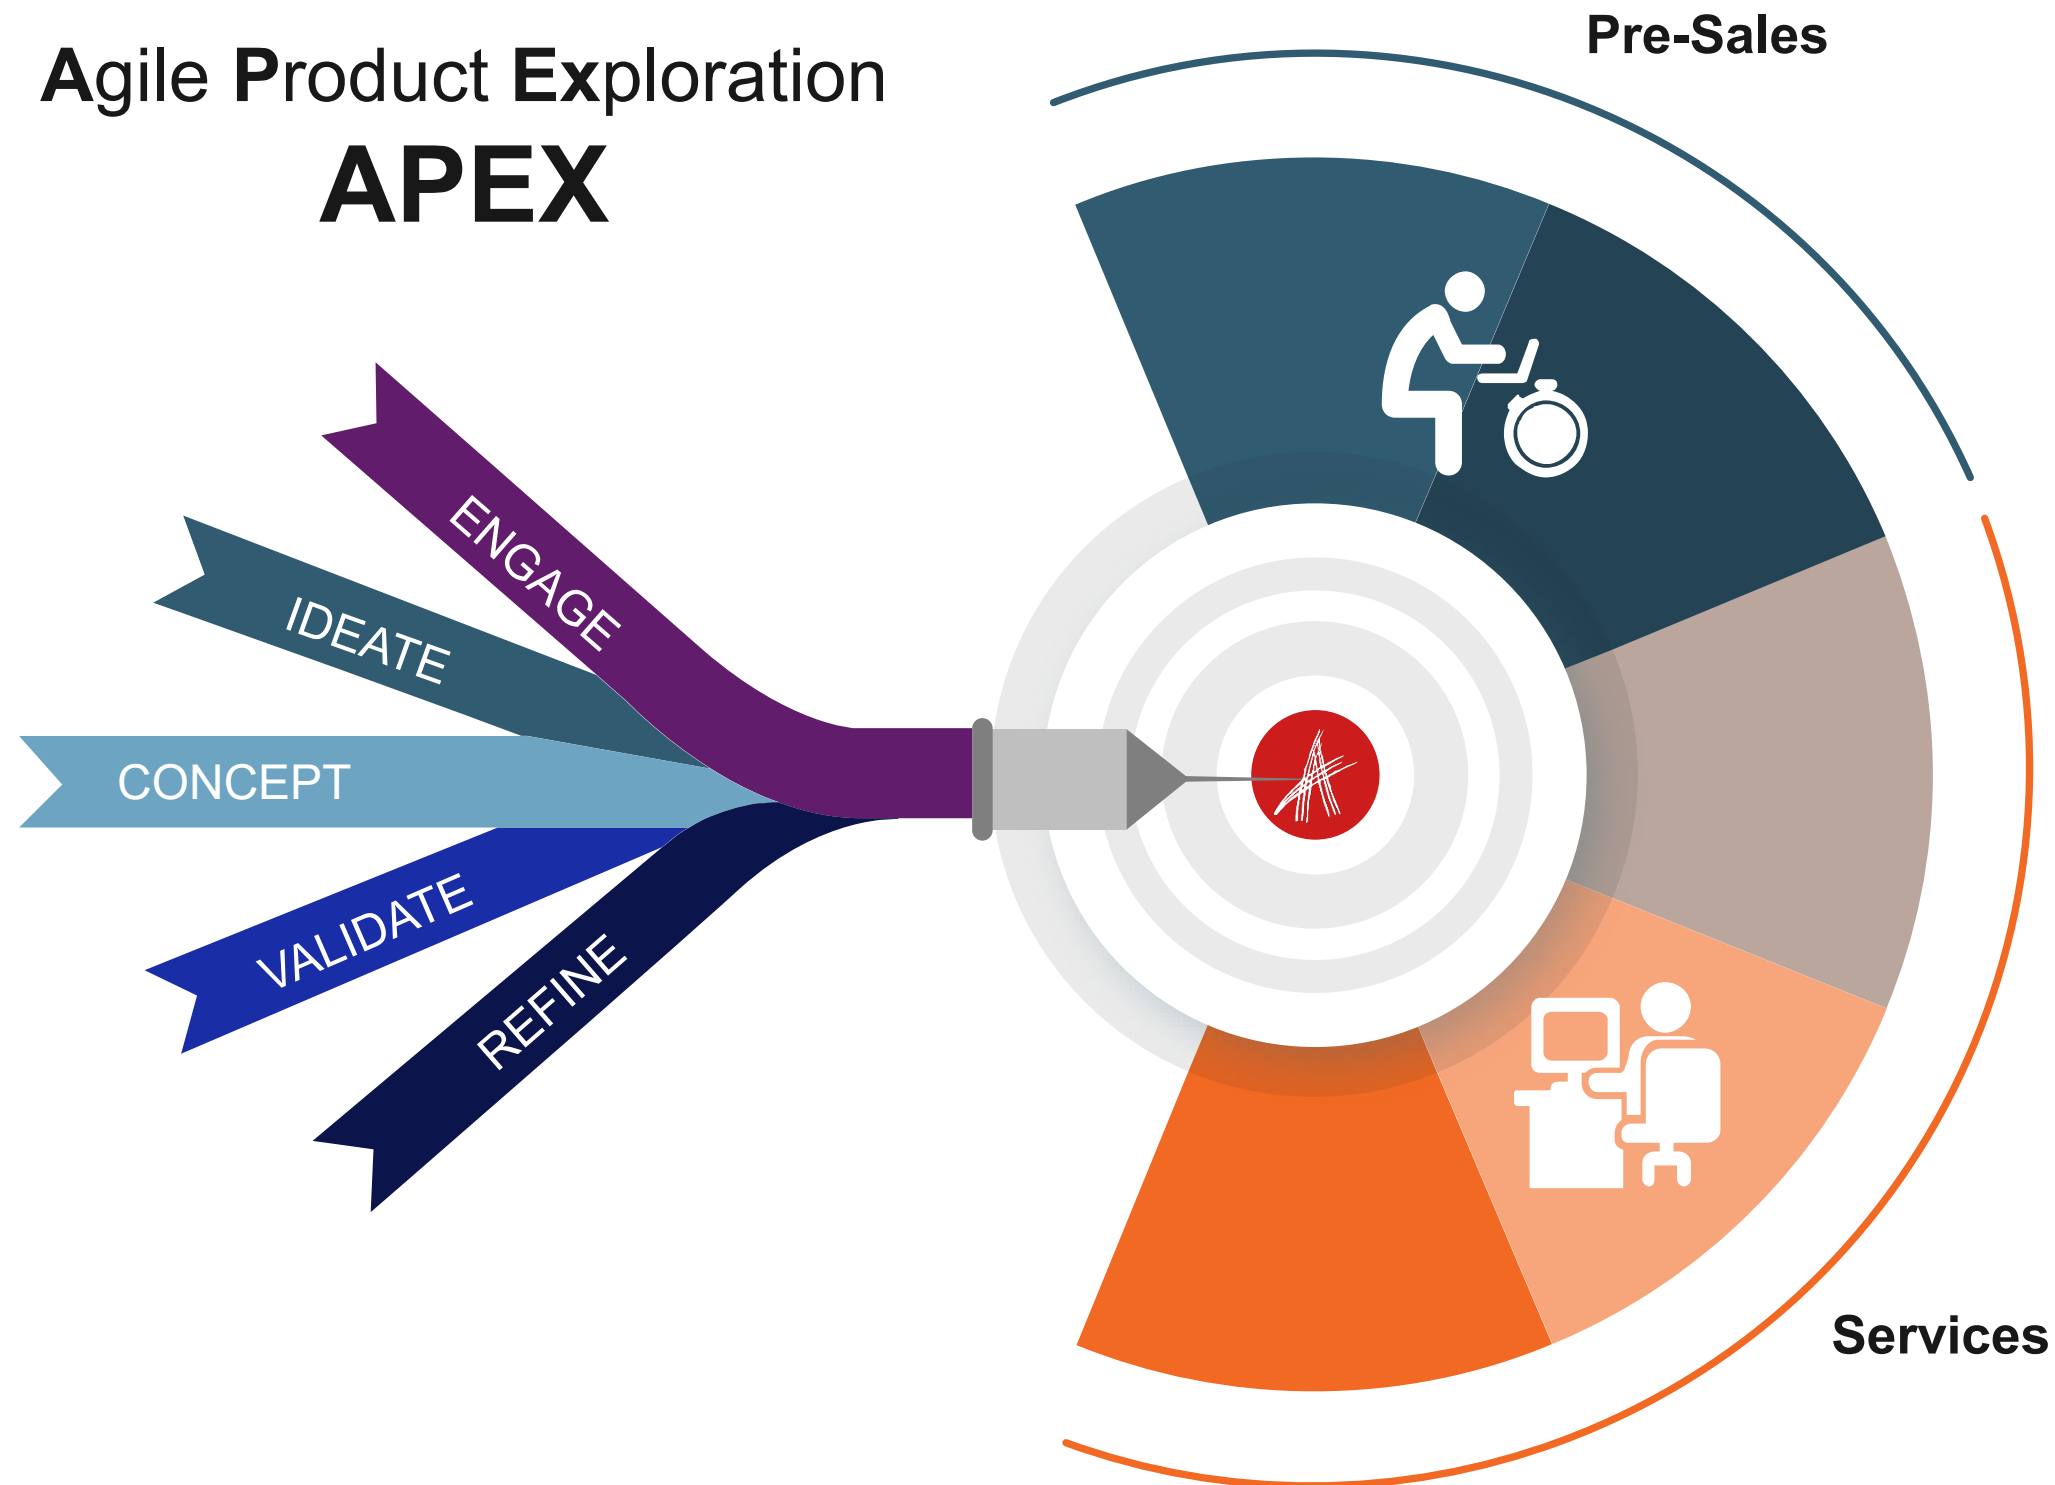

*The first truth is that at least half of your ideas are just not going to work.*

Marty Cagan - **INSPIRED**

”

# Introducing APEX

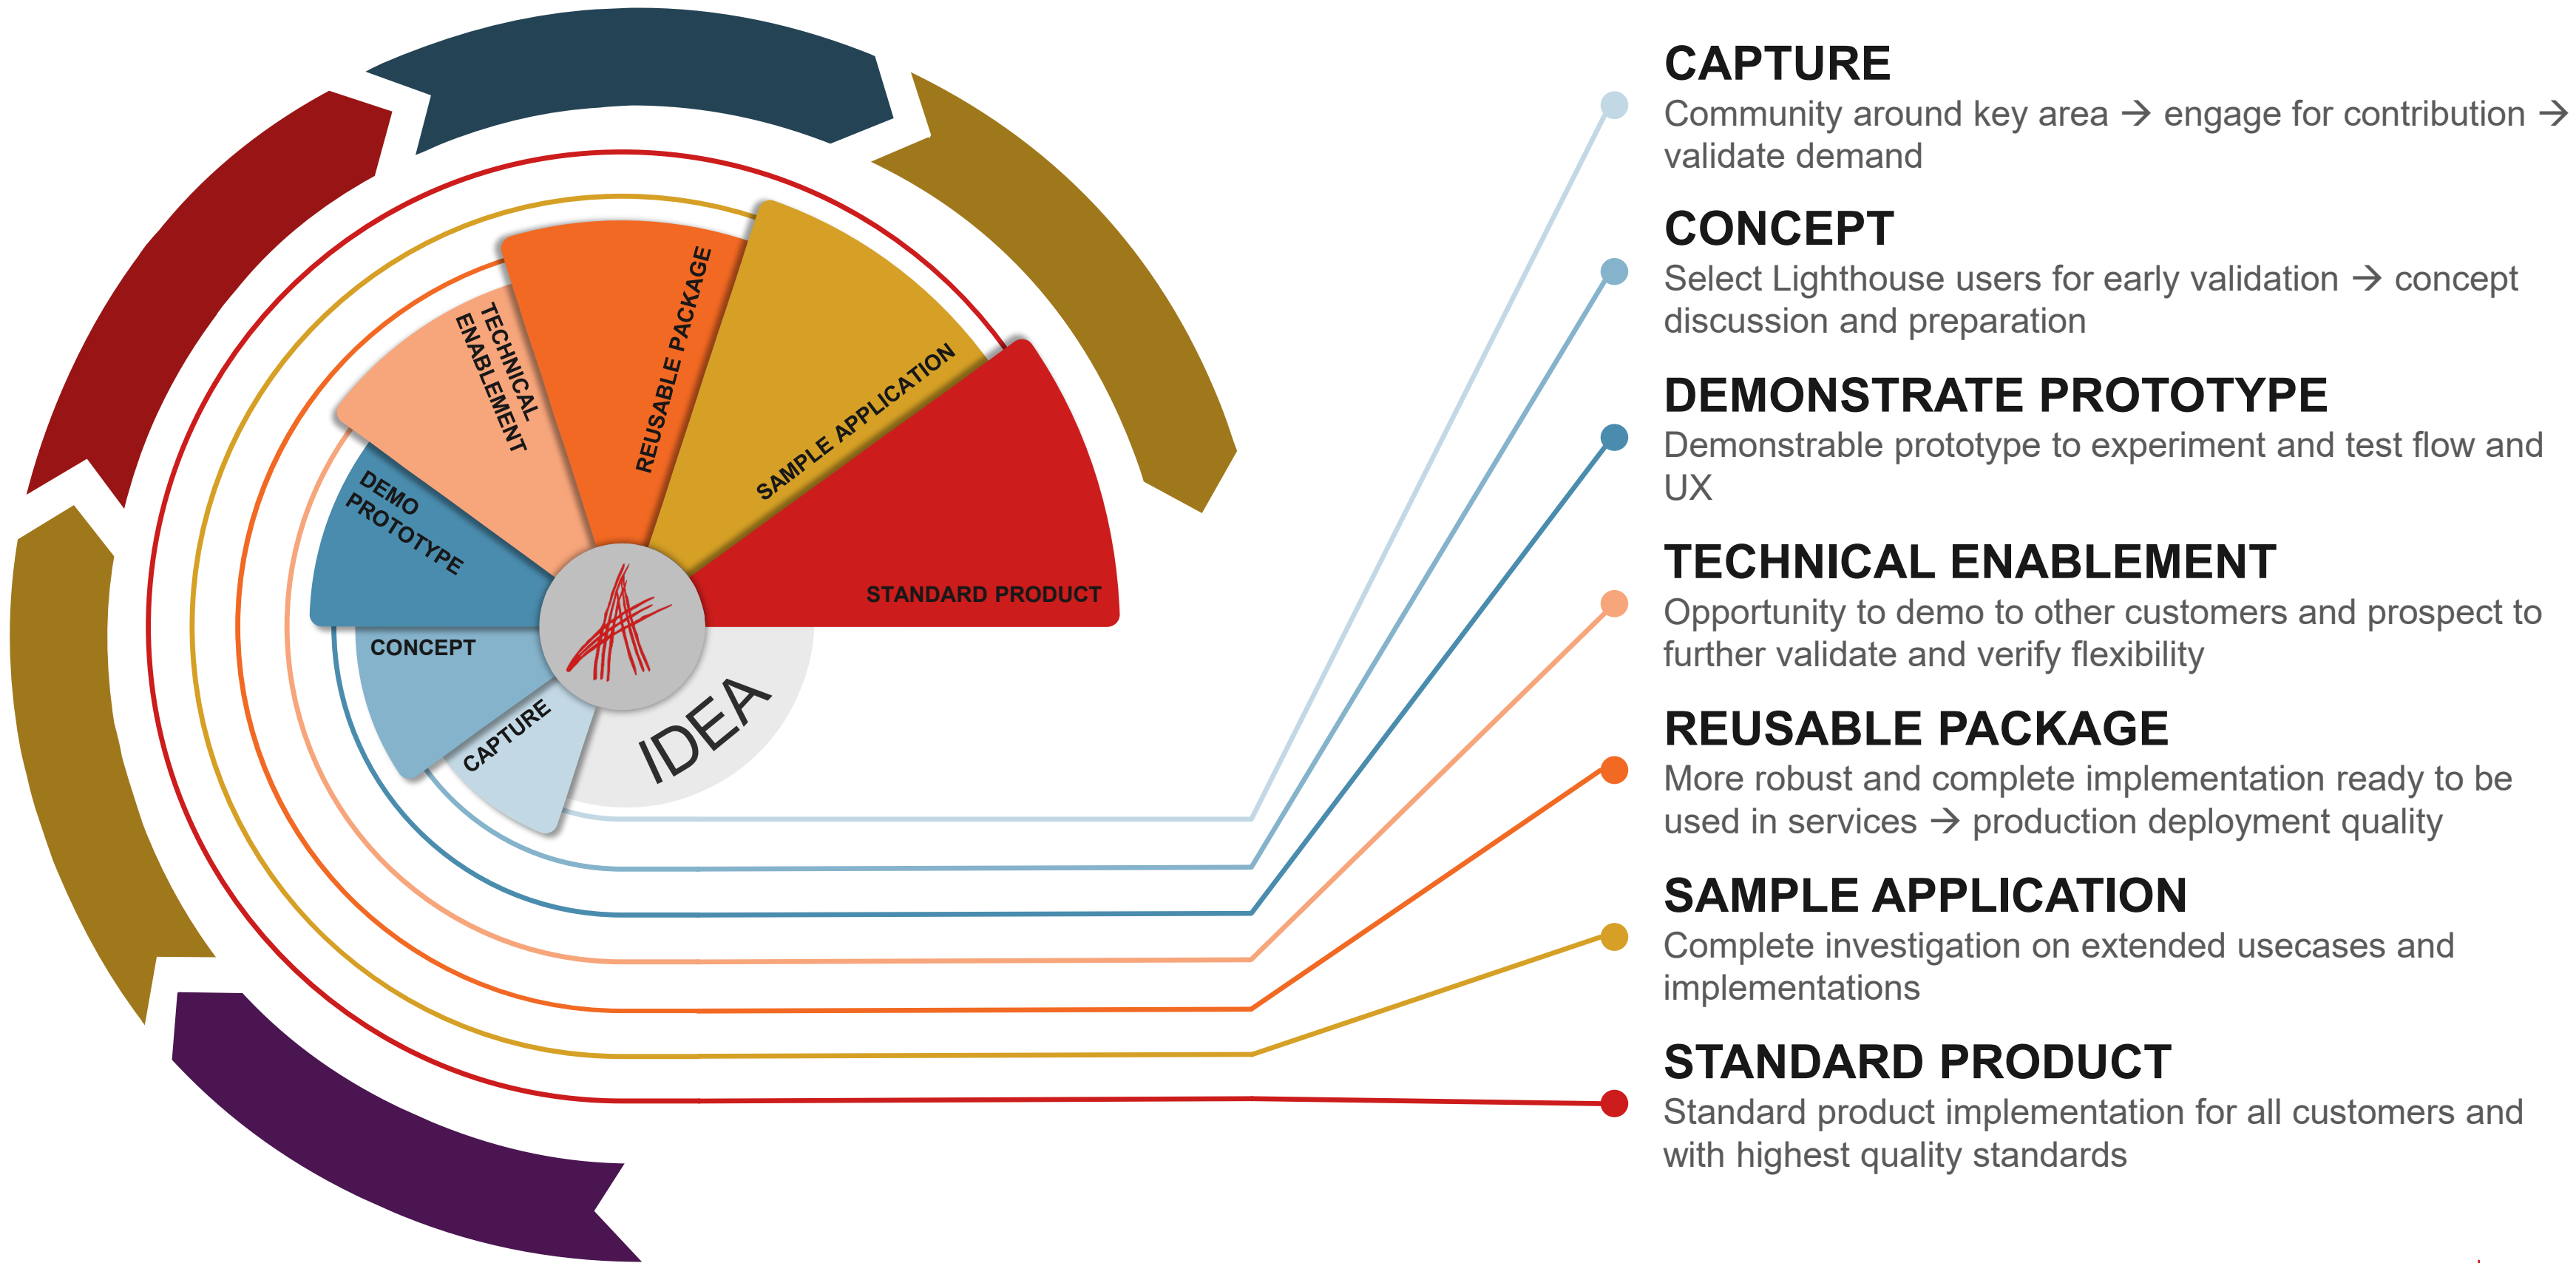

## Agile Product Exploration **APEX**

- New effort to drive customer-validated solutions – **Voice of the Customer**
- Collect feedback to drive priorities
- Mature ideas from concept to solutions
- Build new real-world demo environments and solution templates
- Validate solutions
- Impact priorities for standard product development

# Maturing Solutions – from concept to product quality

# Continuous Product Exploration

# Area currently under investigation

## Variability Management

Configure and extend the newly released Variant Management to apply on different product structures

## Change Management

Configure and extend CM processes to explore different usecases and applications

## Verification

Conceptualize and validate approaches for Requirement Verification and Traceability. Virtual Verification with Simulation and SPDM integration

## Digital Thread Navigation

Configured Graph Views to easily explore data connections and review impacts
