# Aras Product Documentation and Information Strategy

ACE 2024

# Aras Product Documentation and Information Strategy

Plan

Review existing Aras product documentation, information, and eLearning to identify needed changes and additions

Create

Review backlog of customer requests for documentation updates

Release

Collaborate with the Product Management team and implement changes and additions

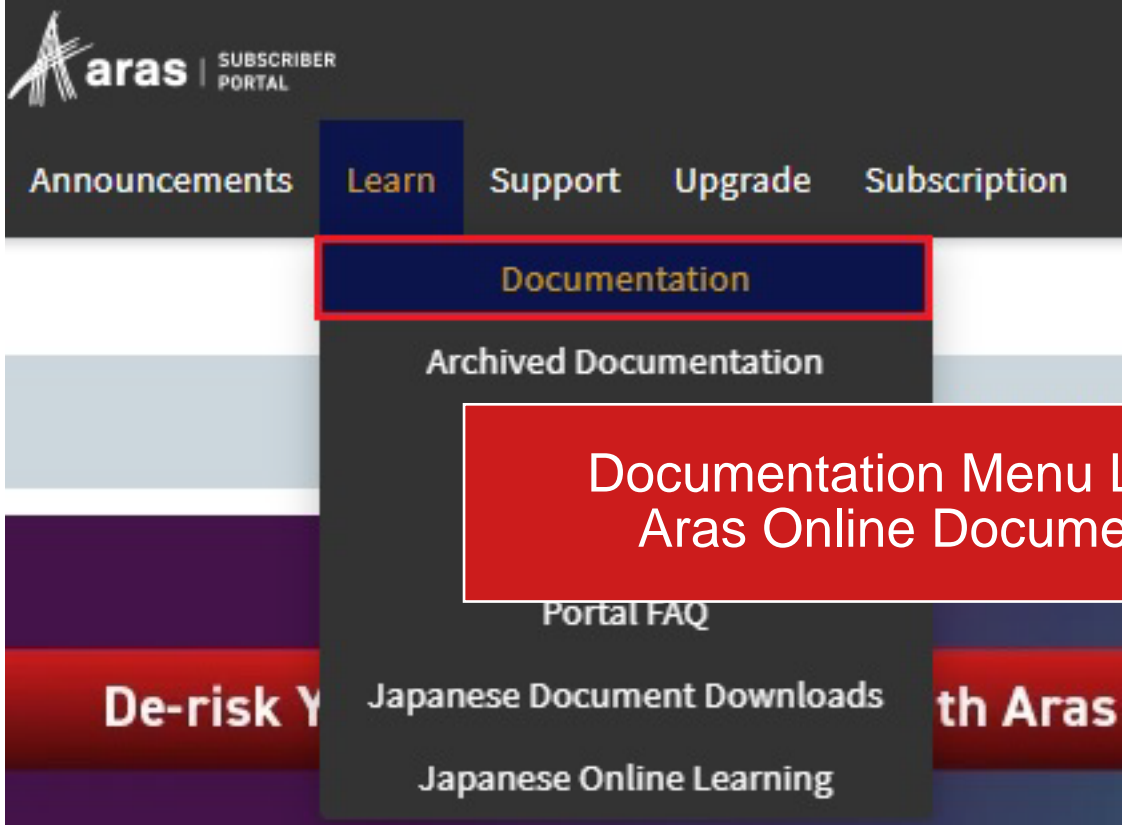

Release quality Aras product documentation, information, and eLearning

# What's New With Product Documentation

ACE 2024

# Aras Online Documentation in Subscriber Portal

Documentation Menu Launches Aras Online Documentation

The image shows the 'Aras Online Documentation' page. The header is 'Aras Online Documentation' with the subtitle 'All Products and Releases'. The page is organized into two main sections: 'SaaS Offerings' and 'Aras Innovator'. Each section contains a grid of product offerings, each with a small icon and a text label.

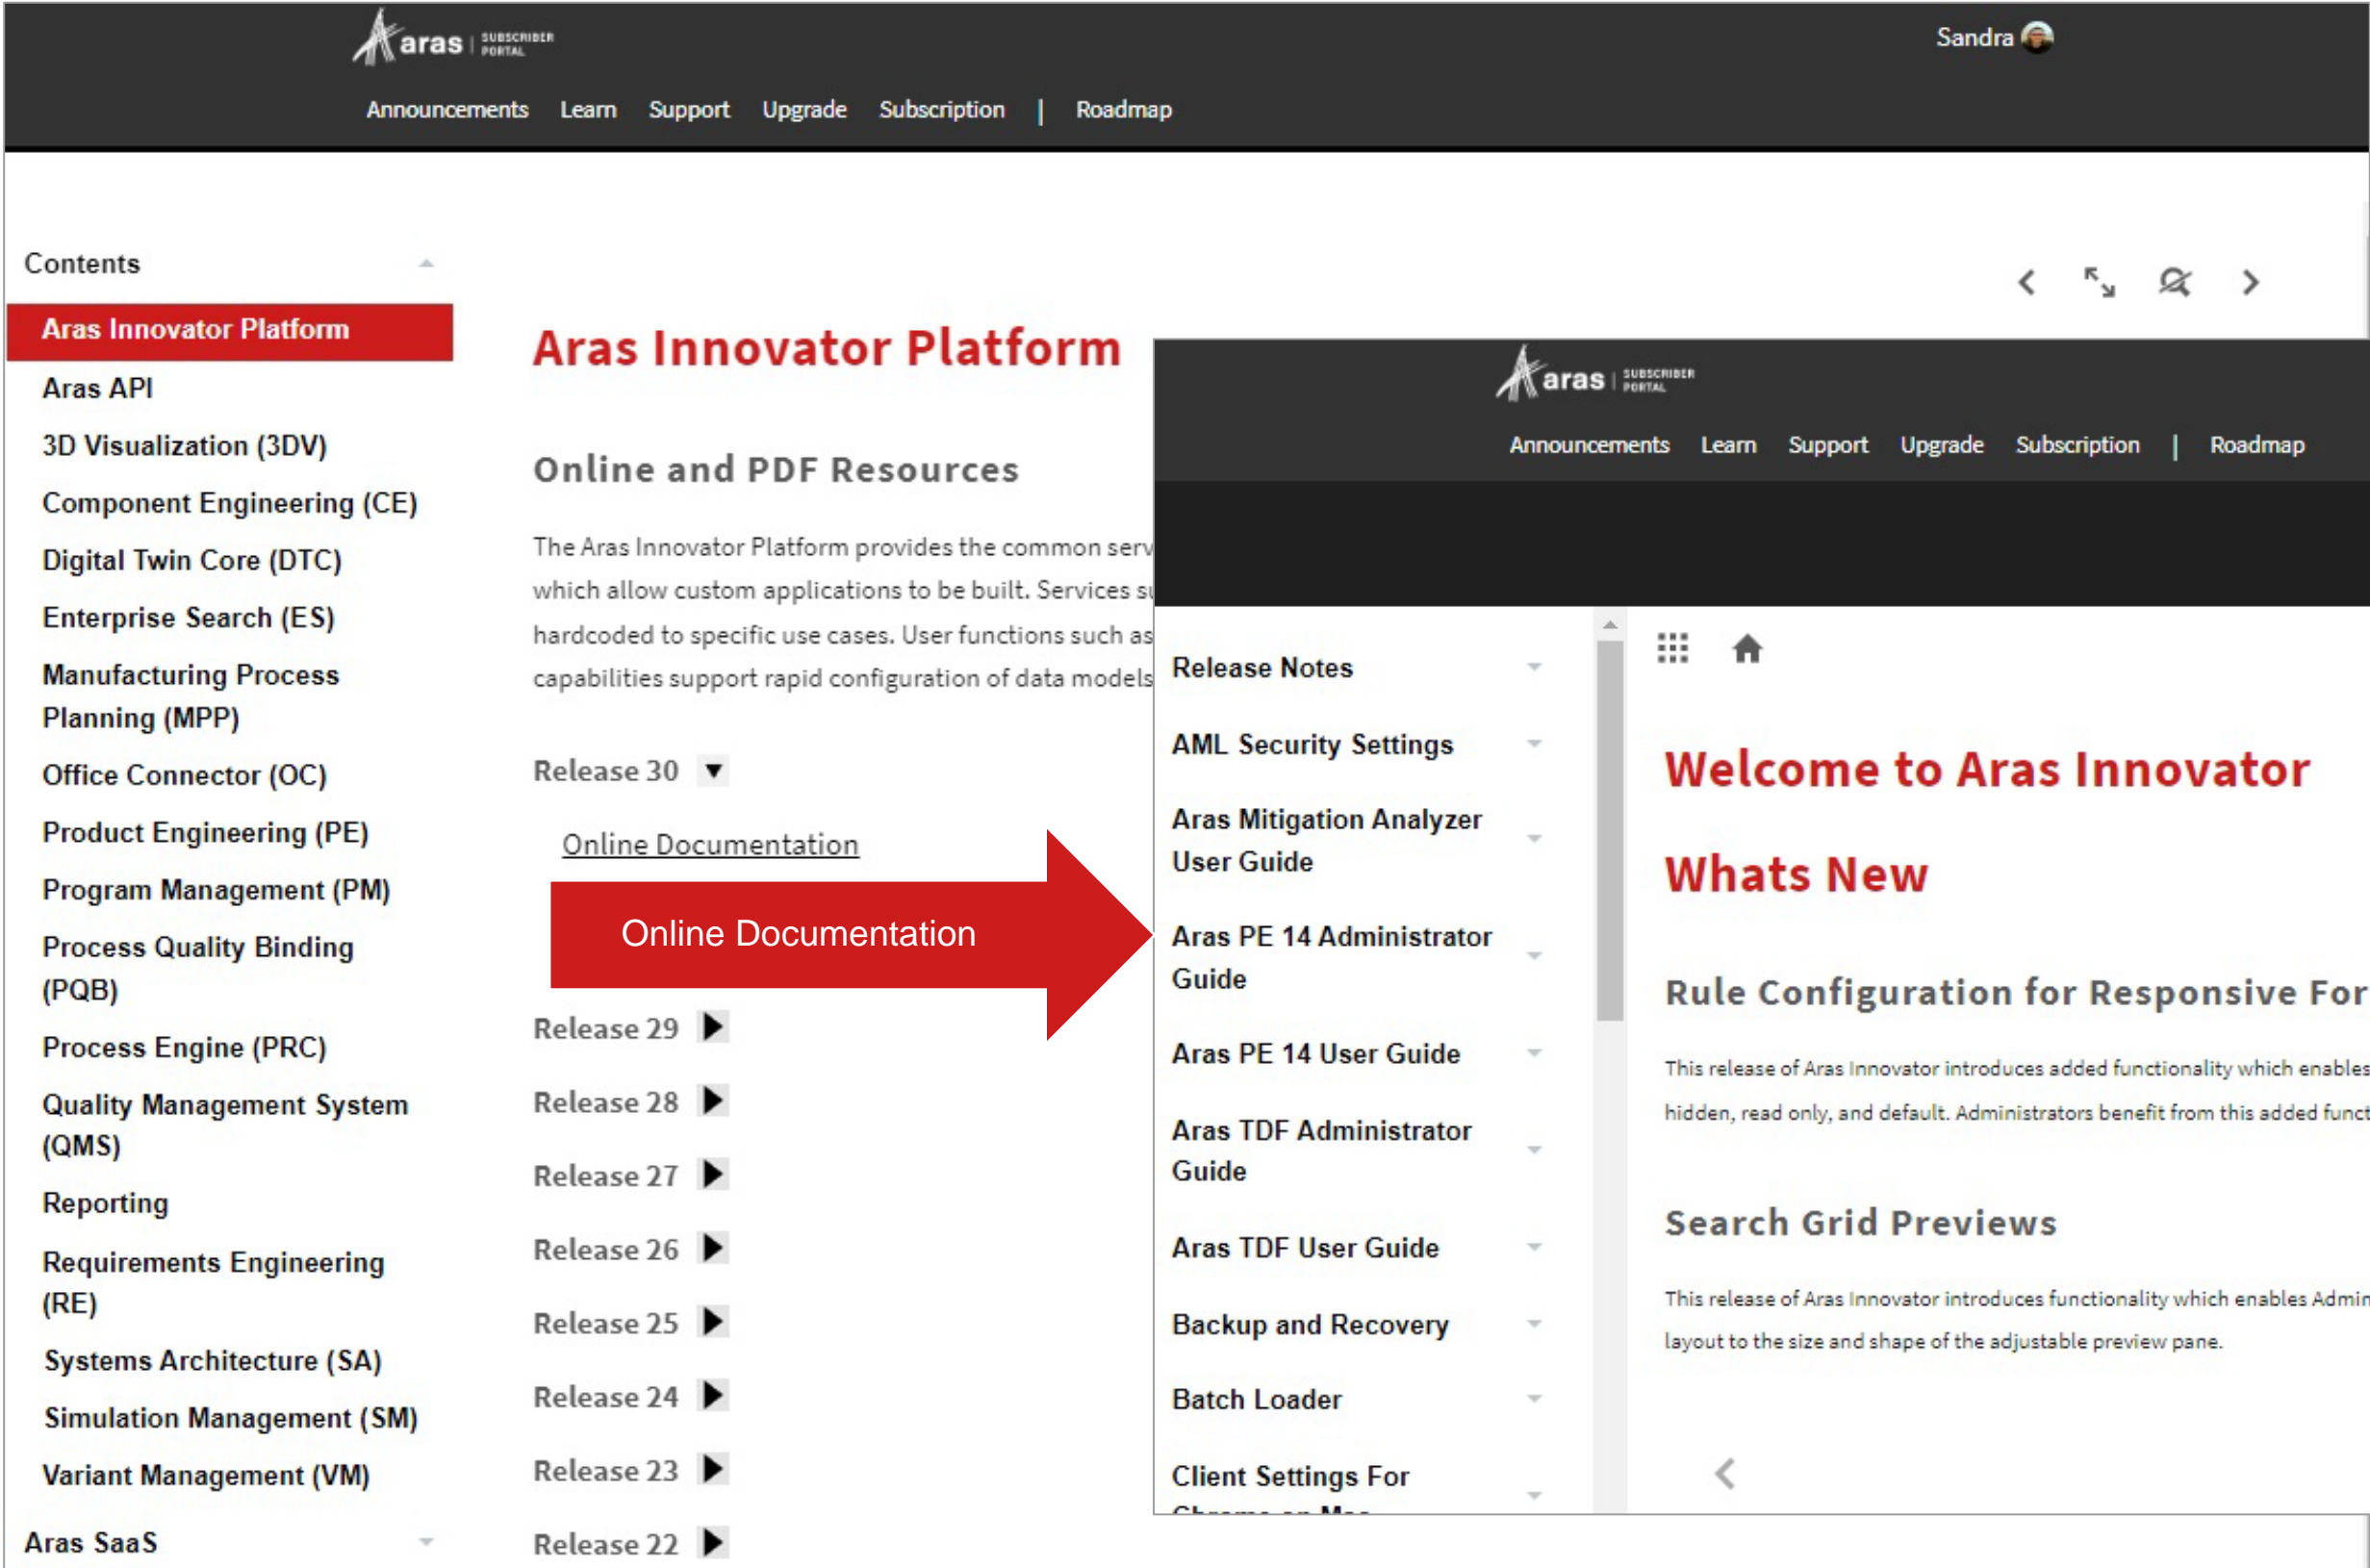

SaaS Offerings	
Aras Enterprise	Aras DevOps

Aras Innovator		
Aras Innovator Platform	Aras APIs	3D Visualization (3DV)
Component Engineering (CE)	Digital Twin Core (DTC)	Enterprise Search (ES)
Manufacturing Process Planning (MPP)	Office Connector (OC)	Product Engineering (PE)
Program Management (PM)	Process Quality Binding (PQB)	Process Engine (PRC)
Quality Management System (QMS)	Reporting (RPT)	Requirements Engineering (RE)
Systems Architecture (SA)	Simulation Management (SM)	Technical Documentation (TD)
Variant Management (VM)	Archived Documentation	

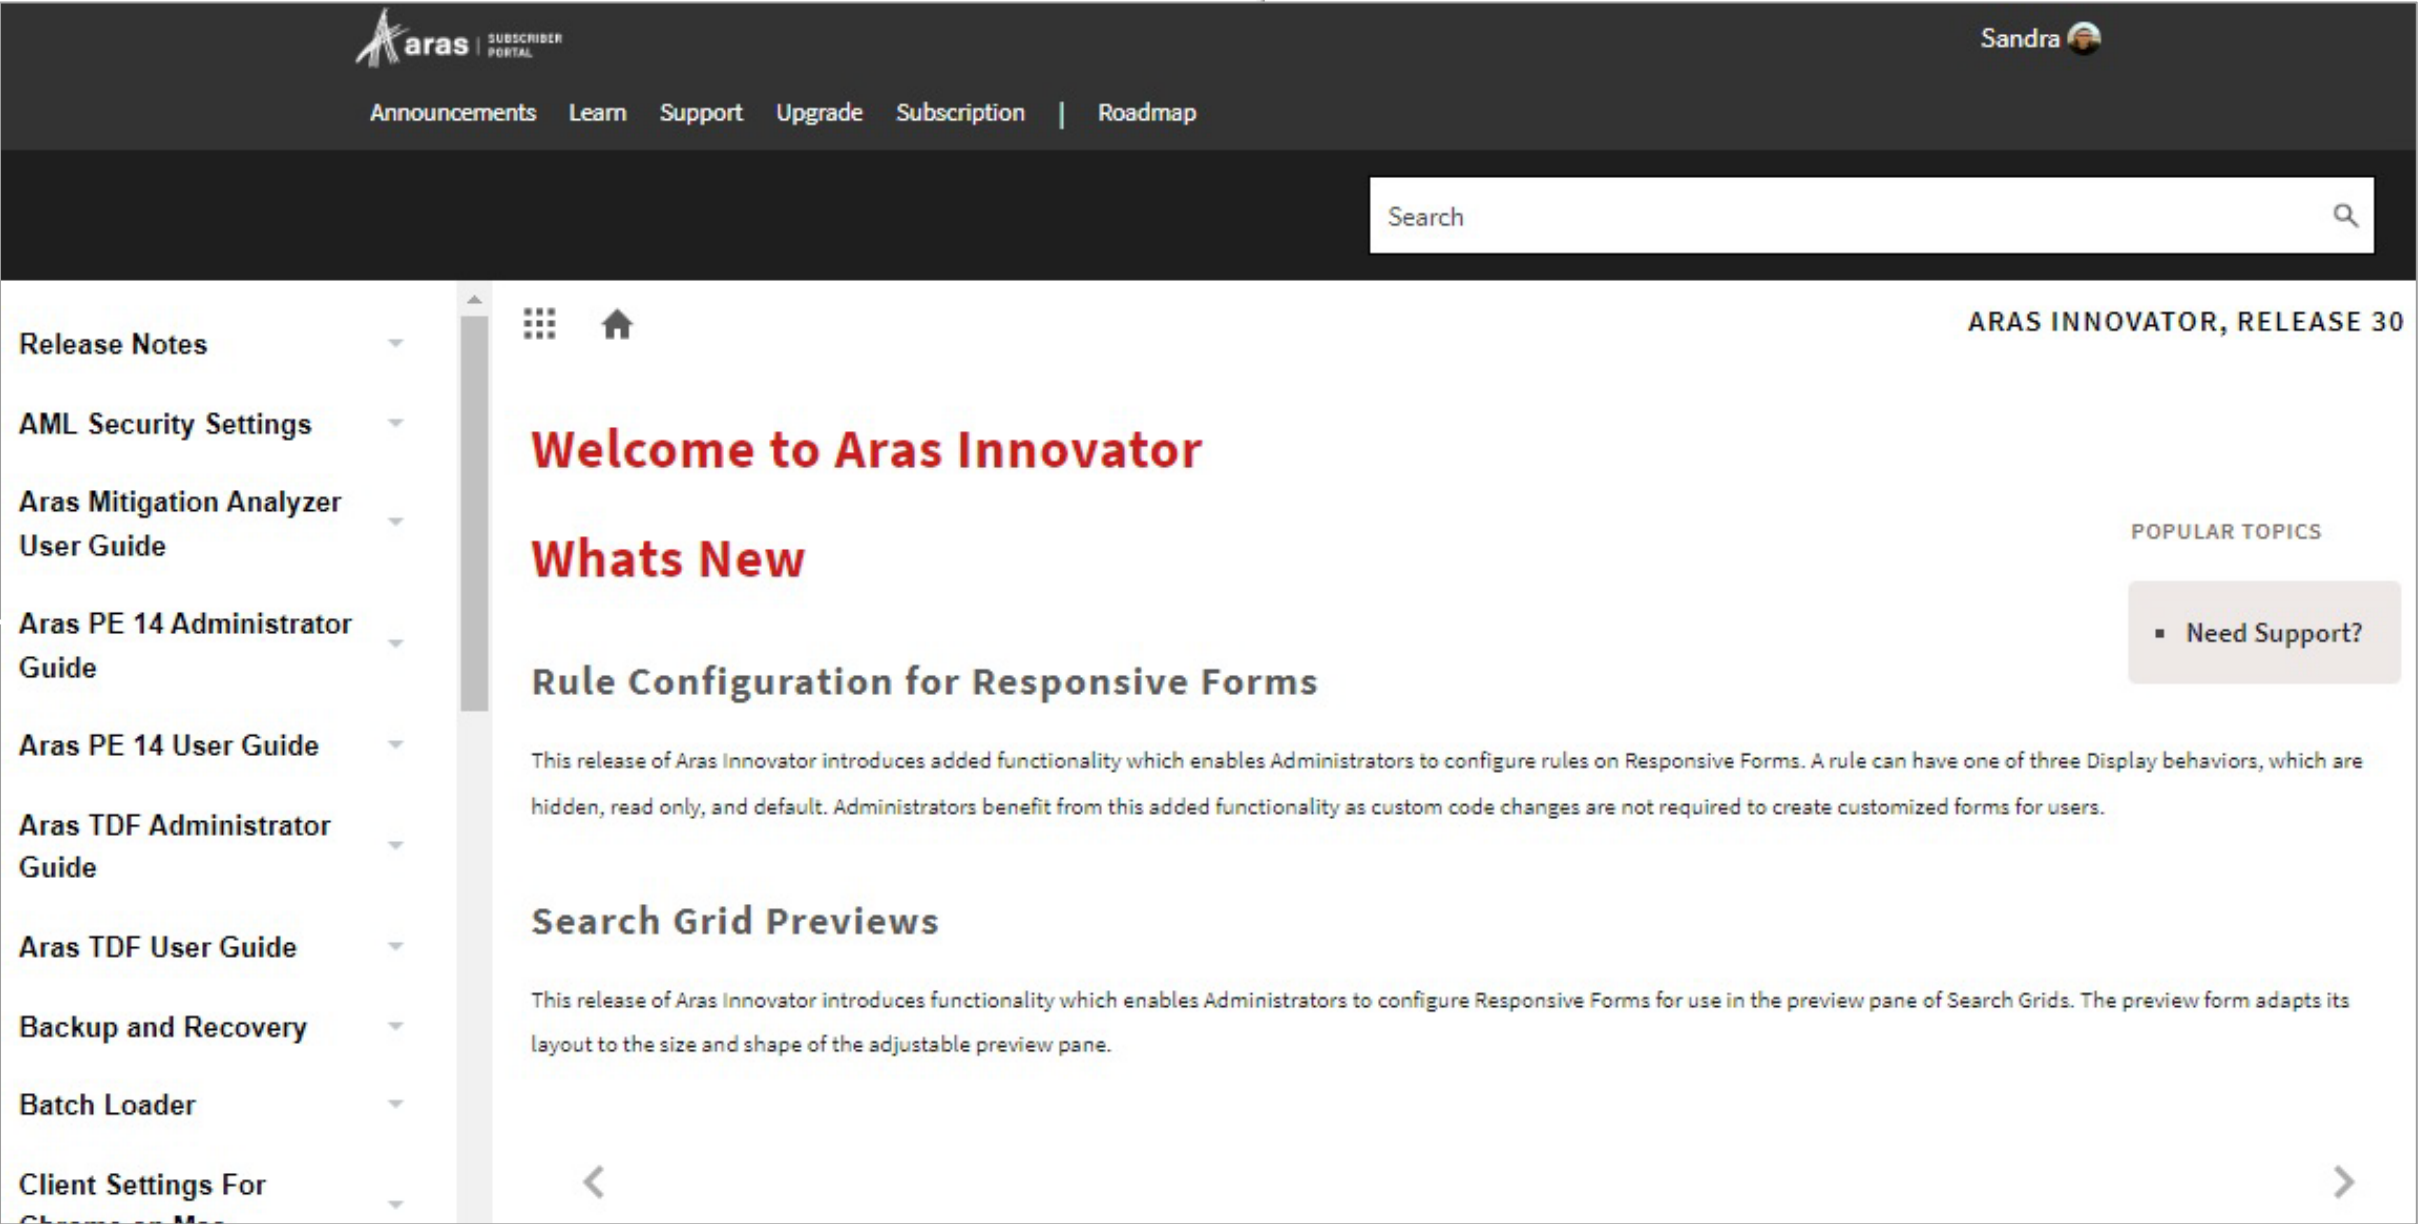

# Aras Online Documentation in Subscriber Portal Continued

This screenshot shows the navigation menu of the Aras Subscriber Portal. The 'Aras Innovator Platform' category is highlighted in red. A red arrow points from the 'Online Documentation' link in the Release 30 dropdown to the main content area.

- Aras SaaS
- Variant Management (VM)
- Simulation Management (SM)
- Systems Architecture (SA)
- Requirements Engineering (RE)
- Reporting
- Quality Management System (QMS)
- Process Engine (PRC)
- Process Quality Binding (PQB)
- Program Management (PM)
- Product Engineering (PE)
- Office Connector (OC)
- Manufacturing Process Planning (MPP)
- Enterprise Search (ES)

This screenshot shows the 'Aras Innovator Platform' online documentation page for Release 30. The page features a search bar, a navigation menu on the left, and a main content area with a 'Welcome to Aras Innovator' heading and a 'Whats New' section.

**Aras Innovator Platform**

## Online and PDF Resources

The Aras Innovator Platform provides the common services which allow custom applications to be built. Services are not hardcoded to specific use cases. User functions such as capabilities support rapid configuration of data models.

## Welcome to Aras Innovator

### Whats New

#### Rule Configuration for Responsive Forms

This release of Aras Innovator introduces added functionality which enables Administrators to configure rules on Responsive Forms. A rule can have one of three Display behaviors, which are hidden, read only, and default. Administrators benefit from this added functionality as custom code changes are not required to create customized forms for users.

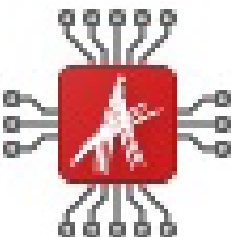

#### Search Grid Previews

This release of Aras Innovator introduces functionality which enables Administrators to configure Responsive Forms for use in the preview pane of Search Grids. The preview form adapts its layout to the size and shape of the adjustable preview pane.

# API Documentation

## Aras APIs

The screenshot shows the Aras Subscriber Portal interface. At the top, the Aras logo and 'SUBSCRIBER PORTAL' are on the left, and the user name 'Sandra' with a profile icon is on the right. A navigation menu includes 'Announcements', 'Learn', 'Support', 'Upgrade', 'Subscription', and 'Roadmap'. A left sidebar contains a 'Contents' menu with items like 'Aras Innovator Platform', 'Aras APIs' (highlighted), 'Aras IOM API', '3D Visualization (3DV)', 'Component Engineering (CE)', 'Digital Twin Core (DTC)', 'Enterprise Search (ES)', 'Manufacturing Process Planning (MPP)', 'Office Connector (OC)', 'Product Engineering (PE)', 'Program Management (PM)', 'Process Quality Binding (PQB)', 'Process Engine (PRC)', 'Quality Management System (QMS)', 'Reporting', 'Requirements Engineering (RE)', and 'Systems Architecture (SA)'. The main content area has a title 'Aras APIs' and a sub-section 'What is an API?' with a paragraph explaining API mechanisms. Below that is a 'Web APIs' section with a paragraph about HTTP access. The 'API Types' section is partially visible at the bottom.

# Localization Projects

§ Japanese translations are the priority as Aras has determined this has the highest demand, and to better support our Japanese customers

# What's Coming to Aras Product Information

ACE 2024

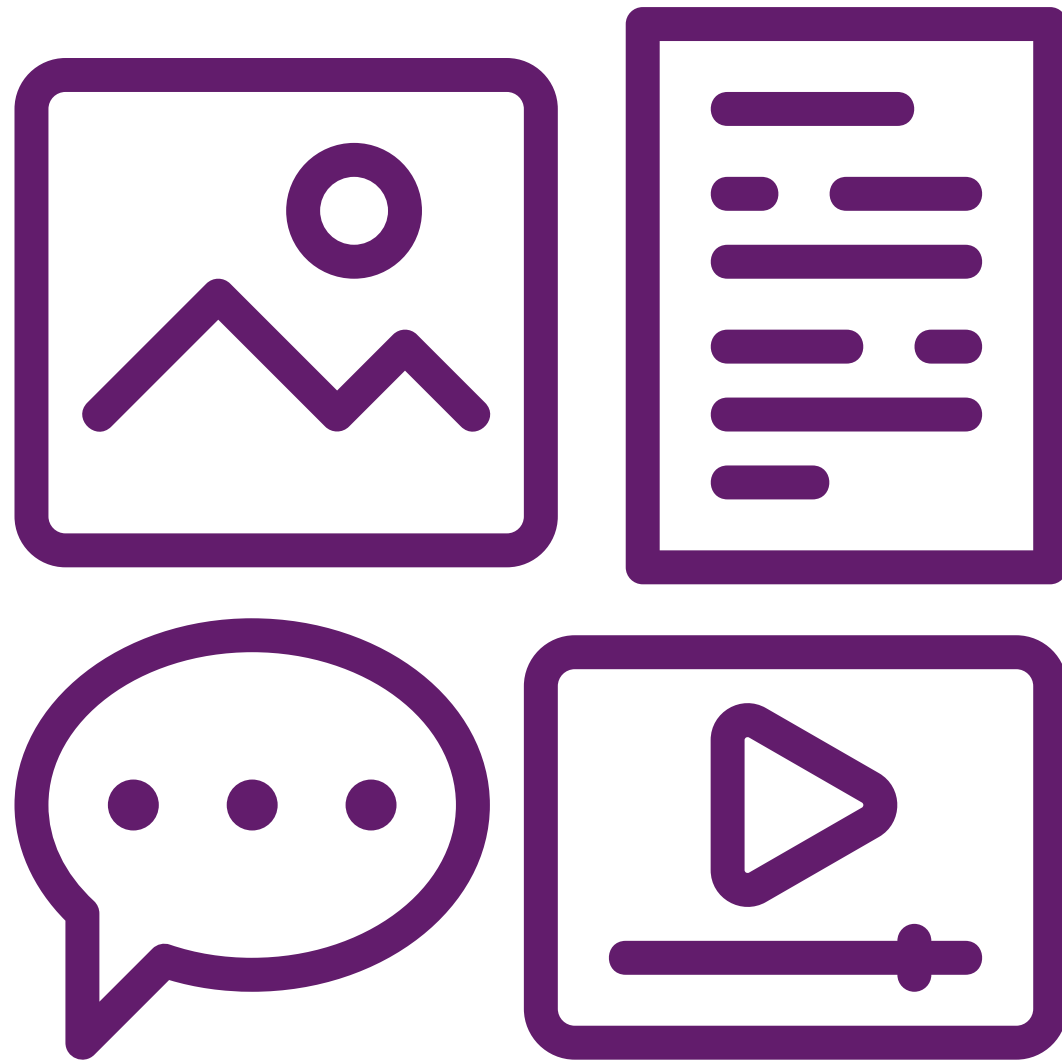

# Aras Online Help Transformation

- § Aras online help will be published in HTML5 format. This enables Aras customers to easily customize the Aras online help for their specific configuration utilizing any HTML editing software.
- § The online help files will be updated to map to Aras Innovator, applications, and platform components which enables the implementation of context-sensitive help.

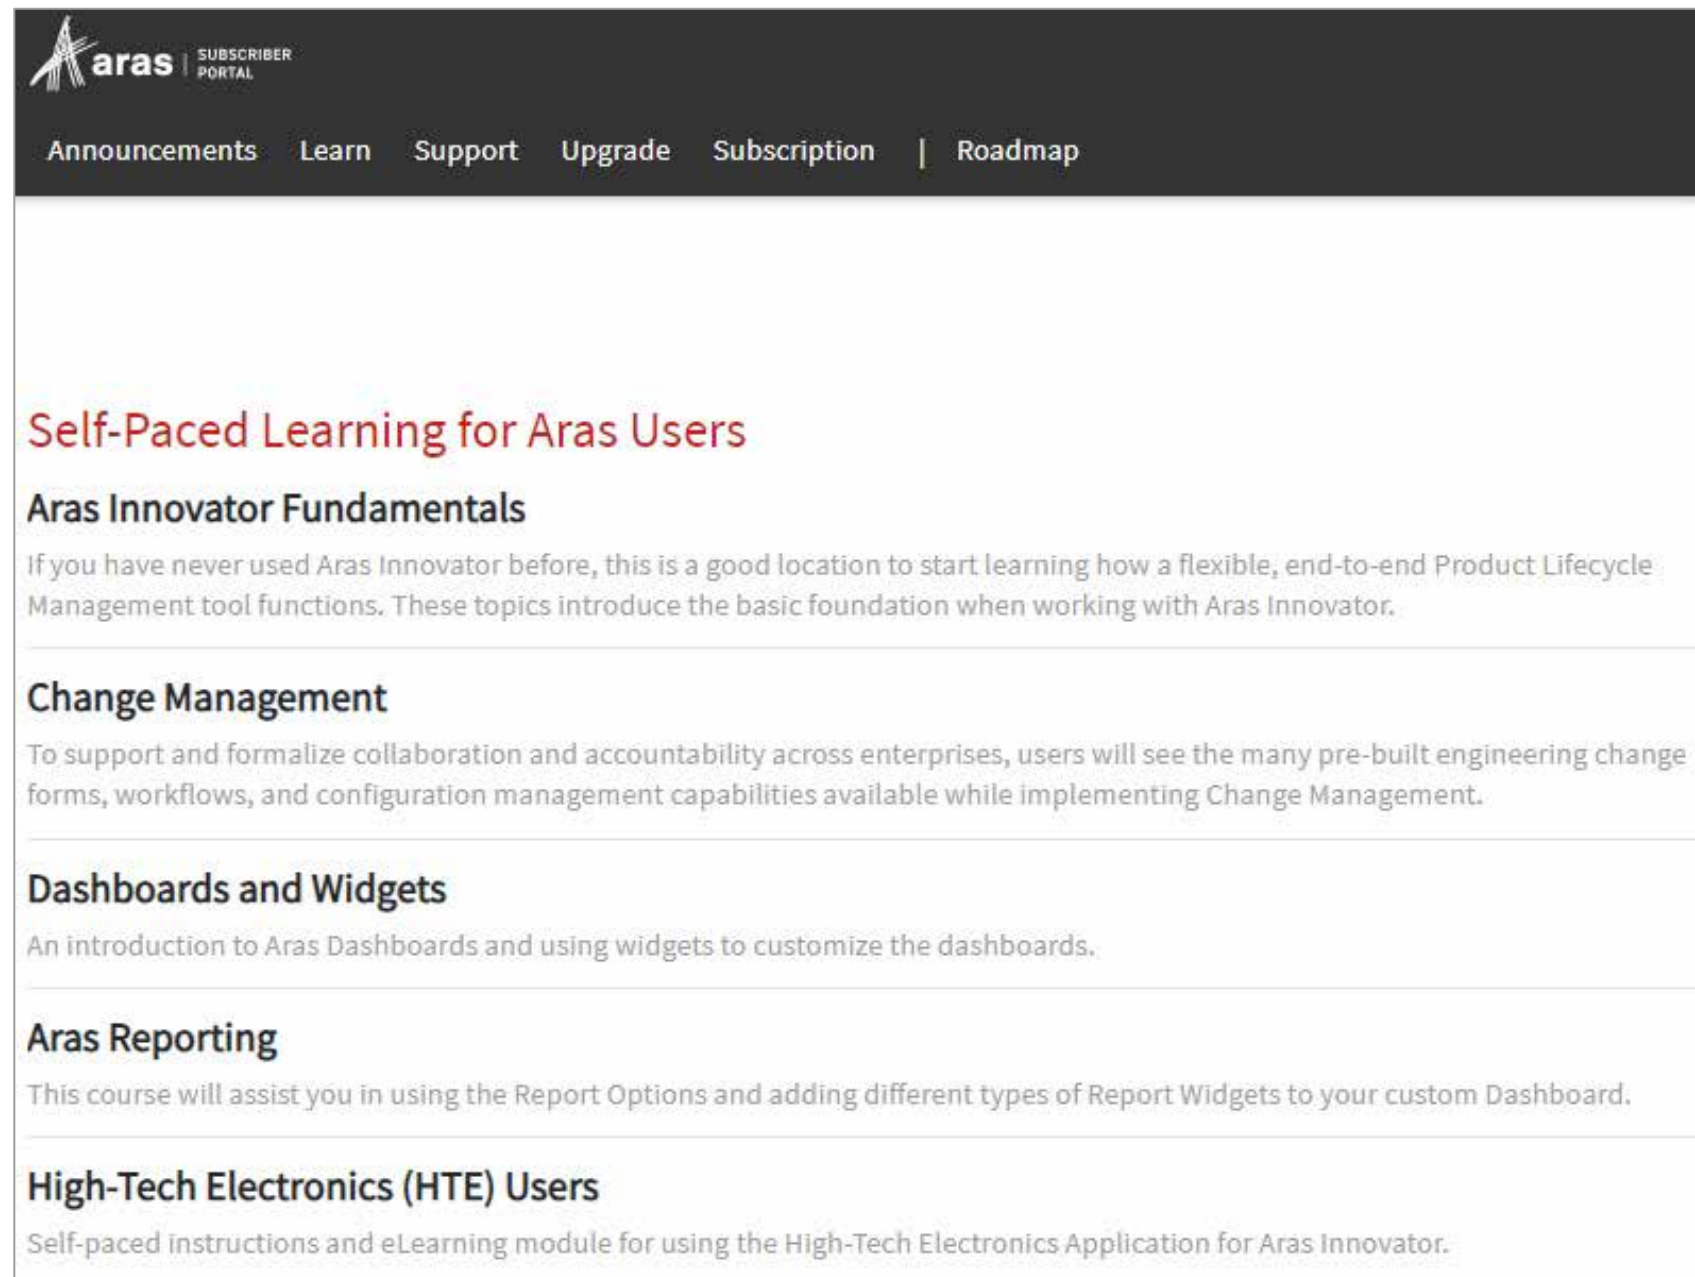

# Expansion of Product Information

- § All Aras Product Information provided on aras.com will be updated to include the following:
  - § Product Description and Overview
  - § Purpose of the Product
  - § Customer Pain Points the Product Resolves
  - § History of the Product and Future Pipeline
  - § Mapping Product to Customer Needs
  - § Customer Stories
  - § Demo Recordings
  - § Product Feature Tutorial Videos
  - § Brochures
- § Aras Online Documentation to be published on aras.com
  - § Aras Product Documentation will be added to the public website which enables all users to have access
  - § Cross-references will be included in various areas with the Aras Online Documentation, such as blogs
  - § Provides more product information for companies looking for a PLM solution

# What's Happening with eLearning

A screenshot of the Aras Subscriber Portal website. The header is dark with the Aras logo and 'SUBSCRIBER PORTAL' text. Below the header is a navigation menu with links for 'Announcements', 'Learn', 'Support', 'Upgrade', 'Subscription', and 'Roadmap'. The main content area features several sections with red headings: 'Self-Paced Learning for Aras Users', 'Aras Innovator Fundamentals', 'Change Management', 'Dashboards and Widgets', 'Aras Reporting', and 'High-Tech Electronics (HTE) Users'. Each section has a brief introductory paragraph.

- § eLearning is now part of Product Management
- § Modules will be streamlined and consistent to provide a recording of product functionality with applicable use case workflows
- § eLearning training modules will transition to an online training community to include the following:
  - § Cloud Platform
  - § Personalized Learner Dashboard with Progress Tracker
  - § Immersive Browsing and Search
  - § Individual eLearning Modules and Groupings for Certifications
  - § Simulated Modules to Promote Learner Interactivity
  - § Gamification
  - § Quizzes
  - § Reporting
  - § AI-Based Recommendations
  - § Enterprise Grade Performance and Security
  - § Additional Exciting Features!
